

With Infor Healthcare, you get a purpose-built, comprehensive suite of solutions designed to meet the unique and complex business process needs of healthcare organizations.

Specialized tools

- Improve the integration, planning, tracking, and management of people, supplies, clinical data, and financial assets.
- Foster collaborative care delivery and financial and environmental sustainability.
- Improve the quality of clinical outcomes and the viability of business operations.
- Standardize, centralize, and automate business processes.
- Optimize resources by shifting staff hours from paper processes to patient care.
- Eliminate the complexities of fragmented, legacy solutions.
- Move data from department silos and connect your organization for improved collaboration.

For your industry

Industry-specific capabilities, including finance, human resources, supply chain management, research and grants, compliance, and healthcare integration.

- Infor Healthcare is a modern solution with a beautiful new user experience, enterprise collaboration framework, and pervasive analytics embedded through process flows.
- Connect strategy with operational execution.
- Manage trends and performance.
- Optimize and align resources.
- Connect disparate technologies, and deliver actionable insight and intelligence.
